Overview

We are a leading provider of secure, authentication solutions delivered by our easy to integrate Verified platform. Our Verified platform binds strong passwordless authentication with biometric identity, which offers our customers a streamlined path to zero trust architecture. Verified FIDO2 passwordless authentication is certified by the FIDO Alliance to be compliant and interoperable with FIDO specifications.

The explosive growth in online and mobile commerce, telemedicine, remote working and digital activities of all descriptions is self-evident to everyone who lived through the Covid 19 pandemic since 2020. Identity theft, phishing attacks, spear-phishing, password vulnerabilities, account takeovers, benefits fraud - it seems like these words have entered our daily lexicon overnight. These are significant impediments to the operations and growth of any business or organization, and dealing with the risks and consequences of these criminal activities has created significant friction in both time, cost and lost opportunity. Consider all the outdated methods that organizations have implemented in order to prevent fraud. The requests to receive and enter one-time passwords, that can be easily hijacked. The vulnerable security questions you get asked – whether on-line or when reaching out to a call center – what was your first pet’s name? who was your best friend in high school? These steps all add up to friction, making it difficult for consumers to login, transact and execute daily tasks, with little added protection from fraud. Surely there is a better way to address these challenges? authID believes there is.

We provide secure, facial biometric, identity verification, and strong customer authentication. We maintain a global, cloud-based Verified platform for our enterprise customers or employees to enable their users to easily verify and authenticate their identity through a mobile device or desktop (with camera) of their choosing (without requiring dedicated hardware, or authentication apps). We can help our customers establish a proven identity, creating a root of trust that ensures the highest level of assurance for our passwordless login and step-up verification products. Our system enables participants to consent to transactions using their biometric information with a digitally signed authentication response, embedding the underlying transaction data and each user’s identity attributes within every electronic transaction message processed through our platform.

Digital transformation across all market segments requires trusted identity. Our identity platform offers innovative solutions that are flexible, fast and easy to integrate and offer seamless user experiences. authID’s products help advance digital transformation efforts without the fear of identity fraud, while delivering frictionless user experiences. We believe that it is also essential that electronic transactions have an audit trail, proving that the identity of the individual was duly authenticated. Our platform provides biometric and multi-factor identity software, which are intended to establish, authenticate and verify identity across a wide range of use cases and electronic transactions.

Our products focus on the broad requirement for enabling frictionless commerce by allowing an entity to instantly “Know Who’s Behind the Device”, their customer, employee or their member. Organizations of all descriptions require cost-effective and secure means of growing their business while mitigating identity fraud. We aim to offer our enterprise customers products that can be integrated easily into each of their business and organizational operations, in order to facilitate their adoption and enhance the end user customer experience.

Our management believes that some of the advantages of our Verified Platform approach are the ability to leverage the platform to support a variety of vertical markets and the adaptability of the platform to the requirements of new markets and new products requiring cost-effective, secure, and configurable mobile solutions. Our target markets include cybersecurity, workforce, banking, fintech and other disruptors of traditional commerce, small and medium sized businesses, and system integrators working with government and Fortune 1000 enterprises. At its core, our offering, combining its proprietary and acquired biometric and artificial intelligence technologies (or AI), is intended to facilitate frictionless commerce, whether in the physical or digital world. We intend to increase our investment in developing, patenting and acquiring the various elements necessary to enhance the platform, which are intended to allow us to achieve our goals. One of the principal intended areas of investment is to enhance and expand our use of artificial intelligence in proprietary software, that we believe will increase our value to enterprise customers and stockholders alike.

We are dedicated to developing advanced methods of protecting consumer privacy and deploying ethical and socially responsible AI. We believe that a proactive commitment to ethical AI presents a strong business opportunity for authID and will enable us to bring more accurate products to market more quickly and with less risk to better serve our global user base. Our methods to achieve ethical AI include engaging the users of our products with informed consent, prioritizing the security of our user’s personal information, considering and avoiding potential bias in our algorithms, and monitoring of algorithm performance in our applications.

We were incorporated under the laws of the State of Delaware on September 21, 2011. We have limited operating history and have generated limited revenues from our activities. Our principal executive offices are located at 1580 North Logan Street, Suite 660, Unit 51767, Denver, Colorado 80203.

Any of these risks might cause you to lose all or a part of your investment.

RISKS RELATED TO OUR SECURITIES AND THE OFFERING

If you purchase common stock sold in this offering, you will experience immediate dilution as a result of this offering.

Because the price per share of our common stock being offered may be higher than the net tangible book value per share of our common stock, you will experience dilution to the extent of the difference between the offering price per share of common stock you pay in this offering and the net tangible book value per share of our common stock immediately after this offering. Our net tangible book value as of September 30, 2023, was approximately \$0.351 per share of common stock. Net tangible book value per share is equal to our total tangible assets minus total liabilities, all divided by the number of shares of common stock outstanding. After giving effect to the sale by us of 1,574,990 shares of common stock and after deducting commissions and estimated aggregate offering expenses payable by us, you will experience immediate dilution of \$4.799 per share, representing the difference between our as adjusted net tangible book value per share as of September 30, 2023, after giving effect to this offering and the offering price. See the section entitled “Dilution” on page S-10 below for a more detailed illustration of the dilution you may incur if you participate in this offering.

If you purchase shares of our common stock in this offering, you may experience future dilution as a result of future equity offerings or other equity issuances.

In order to raise additional capital, we believe that we will offer and issue additional shares of our common stock or other securities convertible into or exchangeable for our common stock in the future. The price per share at which we sell additional shares of our common stock or other securities convertible into or exchangeable for our common stock in future transactions may be higher or lower than the price per share in this offering, and investors purchasing other securities in the future could have rights superior to existing stockholders..

In addition, we have a significant number of warrants, stock options and Convertible Notes outstanding. To the extent that outstanding warrants, stock options and Convertible Notes have been or may be exercised or converted or other shares issued, you may experience further dilution. Further, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans.

Because we will have broad discretion and flexibility in how the net proceeds from this offering are used, we may use the net proceeds in ways in which you disagree.

We intend to use the net proceeds from this offering for general corporate purposes, including working capital. See “Use of Proceeds” on page S-8 for additional information. We have not allocated specific amounts of the net proceeds from this offering for any of the foregoing purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

Our share price may be volatile and could decline substantially.

The market price of our common stock could be subject to significant fluctuations due to changes in sentiment in the market regarding our operations or business prospects. Many factors may cause the market price for our common stock to decline, including:

- shortfalls in revenues, cash flows or continued losses from operations;
- our inability to commercialize our technology and products or, if successfully commercialized, our inability to sustain market acceptance of existing technology and products;
- breaches of network or information technology security, presentation attacks, natural disasters or terrorist attacks could have an adverse effect on our business
- our ability to continue as a going concern;
- threatened or actual litigation or government investigations;
- additional sales of our securities by us, our directors, executive officers or principal stockholders;

- our operating and financial performance, quarterly or annual earnings relative to similar companies;
- the public’s reaction to our press releases, our other public announcements and our filings with the Securities and Exchange Commission, or the SEC;
- publication of research reports or news stories about us, our competitors or our industry, or positive or negative recommendations or withdrawal of research coverage by securities analysts;
- announcements by us or our competitors of acquisitions, business plans or commercial relationships;
- any major change in our board of directors or senior management;
- adverse market reaction to any indebtedness we may incur or securities we may issue in the future;
- short sales, hedging and other derivative transactions in our securities;
- our creditworthiness, financial condition, performance, and prospects;
- our dividend policy and whether dividends on our common stock have been, and are likely to be, declared and paid from time to time;
- perceptions of the investment opportunity associated with our securities relative to other investment alternatives;
- regulatory or legal developments;
- changes in general market, economic, and political conditions, as well as uncertainty resulting from the COVID-19 pandemic, geopolitical tensions, and other macroeconomic conditions;
- conditions or trends in our industry, or customers;
- changes in accounting standards, policies, guidance, interpretations or principles;
- Our failure to meet the continued listing requirements of the Nasdaq Capital Market including the minimum stockholders’ equity and the minimum bid price requirement, which could result in a de-listing of our common stock; and
- Sales of a substantial number of shares of our common stock in the public market by our existing stockholders

In addition, the stock market experiences extreme fluctuations in price and volume that particularly affect the market price of shares of companies like ours. These price and volume fluctuations are often unrelated or disproportionate to the operating performance of the affected companies. Because of this volatility, we may fail to meet the expectations of our stockholders or of securities analysts, and our stock price could decline as a result. Declines in our stock price for any reason, as well as broad-based market fluctuations or fluctuations related to our financial results or other developments, may adversely affect your ability to sell your shares at a price equal to or above the price at which you purchased them.

Because we do not currently intend to pay cash dividends on our common stock, stockholders will primarily benefit from an investment in our stock only if it appreciates in value.

We do not anticipate declaring or paying any cash dividends on our shares of common stock. We currently intend to retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we do not anticipate paying cash dividends in the foreseeable future. Any future determination as to the declaration and payment of cash dividends or non-cash dividends will be at the discretion of our board of directors and will depend on factors the board of directors deems relevant, including among others, our results of operations, financial condition and cash requirements, business prospects, and the terms of any of our financing arrangements. Accordingly, realization of a gain on stockholders’ investments will primarily depend on the appreciation of the price of our stock. There is no guarantee that our stock will appreciate in value.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after placement agent fees and estimated offering expenses payable by us, will be approximately \$8.6 million.

We currently intend to use the net proceeds from this offering for general corporate purposes, including working capital. The timing and amount of our actual expenditures will be based on many factors and, as of the date of this prospectus supplement, we cannot specify with certainty all of the particular uses of the net proceeds from this offering. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering.

We have not yet determined the amount or timing of the expenditures for the categories listed above, and these expenditures may vary significantly depending on a variety of factors. As a result, we will retain broad discretion over the use of the net proceeds from this offering.

CAPITALIZATION

The following table sets forth our consolidated cash and cash equivalents and capitalization as of September 30, 2023. Such information is set forth on the following basis:

- on an actual basis;
- a pro forma basis, to give effect to the sale of the 1,574,990 shares of common stock in this Offering at an offering price of \$6.00 per share, after deducting estimated placement agent fees and estimated offering expenses payable by us.

You should read this table together with the section of this prospectus supplement entitled “Use of Proceeds” and with the financial statements and related notes and the other information that we incorporate by reference into this prospectus supplement and the accompanying prospectus (in thousands).

	Actual	Proforma
Cash and cash equivalents	3,811	12,399
Total liabilities	1,638	1,638
Total stockholders' (deficit) equity	7,316	15,905
Total capitalization	11,127	28,304

The outstanding share information in the table above excludes the following:

- 488,018 shares of common stock issuable upon exercise of certain warrants at a weighted average exercise price of \$13.22.

DILUTION

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the offering price per share and the as adjusted net tangible book value per share of our common stock after this offering.

Our net tangible book value as of September 30, 2023 was approximately \$0.351 per share. “Net tangible book value” is total assets minus the sum of liabilities and intangible assets. “Net tangible book value per share” is net tangible book value divided by the total number of shares outstanding.

After giving effect to the sale of 1,574,990 shares of common stock in this Offering at the offering price set forth on the cover page of this prospectus supplement and after deducting estimated placement agent fees and expenses payable by us our as adjusted net tangible book value as of September 30, 2023 would have been approximately \$1.201 per share of common stock. This represents an immediate increase in net tangible book value of \$0.850 per share to our existing stockholders and an immediate dilution in net tangible book value of \$4.799 per share to investors participating in this offering. The following table illustrates this dilution per share to investors participating in this offering:

Offering price per share	\$	6.000
Net tangible book value per share as of September 30, 2023	\$	0.351
Increase per share attributable to this offering	\$	0.850
As adjusted net tangible book value per share as of September 30, 2023 after this offering	\$	1.201
Dilution per share to new investors participating in this offering	\$	4.799

The number of shares of common stock that would be outstanding after this offering is based on 7,874,962 shares of common stock outstanding as of September 30, 2023 and excludes, as of that date:

- 488,018 shares of common stock issuable upon exercise of certain warrants at a weighted average exercise price of \$13.22.
- 1,685,570 shares of common stock issuable upon exercise of certain stock options at weighted average exercise price of \$25.85 per share; and
- 8,278 shares of common stock issuable upon conversion of Convertible Notes in the approximate principal amount of \$245,000 convertible at a conversion price of \$29.60.

DESCRIPTION OF THE SECURITIES WE ARE OFFERING

In this offering, we are offering 1,574,990 shares of our common stock.

Common Stock

The material terms and provisions of our common stock are described under the caption “Description of Common Stock” beginning on page 4 of the accompanying prospectus.

PLAN OF DISTRIBUTION

We have entered into a securities purchase agreement with investors pursuant to which we will sell to such purchasers 1,574,990 shares of common stock.

The securities purchase agreement contains customary representations, warranties and covenants for transactions of this type. We have also agreed to indemnify the investors against certain losses resulting from our breach of any of our representations, warranties, or covenants under agreements with the purchasers as well as under certain other circumstances described in the securities purchase agreement.

We engaged Madison Global Partners, LLC, to act as our placement agent (the "Placement Agent") for the Offering pursuant to an engagement letter dated November 2, 2023, to solicit offers to purchase the securities in this offering. The Placement Agent is not purchasing or selling any of the securities we are offering, and it is not required to arrange the purchase or sale of any specific number of securities or dollar amount, but has agreed to use reasonable best efforts to arrange for the sale of the securities.

The Placement Agent proposes to arrange for the sale of the securities we are offering pursuant to this prospectus supplement to one or more investors through securities purchase agreements directly between the purchasers and us. We established the price following negotiations with the placement agent and prospective investors and with reference to the prevailing market price of our common stock, recent trends in such price and other factors. It is possible that not all of the securities we are offering pursuant to this prospectus supplement will be sold at the closing, in which case our net proceeds would be reduced. We anticipate that the sale of the securities will be completed on the date indicated on the cover page of this prospectus supplement, subject to customary closing conditions. On the closing date, the following will occur:

- We will receive funds in the amount of the aggregate purchase price;
- The Placement Agent will receive the placement agent fees; and
- We will deliver the securities to the Placement Agent on behalf of investors.

Fees and Expenses

We have agreed to pay the placement agent a cash fee equal to 7% of the gross proceeds we receive in the Offering (the "Cash Fee") and to reimburse the Placement Agent \$60,000 in legal expenses with respect to the engagement as set forth in the placement agent agreement. We also agreed to pay the Placement Agent a one-time non-refundable cash retainer fee of \$20,000 upon the signing of the engagement agreement, additional non-refundable retainer fee payments of \$10,000 monthly for the following 3 months after the date of signing of the engagement agreement, commencing one month after signing; and a one-time payment of \$30,000 at the closing of this offering. In addition, if any Covered Party (as defined in the engagement agreement) consummates a private placement or registered offering with the Company where the Placement Agent is not the financial advisor, at any time within twelve months of the earlier of (a) the closing of this offering, or (b) termination or expiration of the engagement agreement, the Company will pay the Placement Agent according to the fees and expenses section of the engagement agreement. We also agreed to issue the Placement Agent or its designees warrants to purchase 110,249 shares of common stock at an exercise price of \$6.00 (the "Madison Warrants"). The exercise price and number of shares of common stock issuable upon exercise of the Madison Warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary cash dividend or our recapitalization, reorganization, merger or consolidation. However, the warrant exercise price or underlying shares will not be adjusted for issuances of common stock at a price below the warrant exercise price. The Madison Warrants will be exercisable commencing upon issuance and expire five years from the effective date of the offering.

We currently anticipate that the sale of securities offered by this prospectus supplement and the accompanying base prospectus will be completed on or about November 22, 2023, subject to customary closing conditions. At the closing, The Depository Trust Company will credit the shares of common stock to the respective accounts of the purchasers. The estimated offering expenses payable by us, excluding the placement agent fees payable to the placement agent, will be approximately \$60,000, which includes legal and printing costs and various other fees associated with registering and listing the common stock. After deducting the placement agent fees and our estimated offering expenses, we expect the net proceeds from this offering to be approximately \$8,588,000.

Lock-Up Agreements

We and each of our directors and officers have agreed not to offer, sell, agree to sell, directly or indirectly, or otherwise dispose of any shares of our common stock or any securities convertible into or exchangeable for shares of our common stock for a period of commencing on the date of the purchase agreement until 45 days after the closing of the offering, with respect to us, and 90 days, with respect to our officers and directors. These lock-up agreements provide limited exceptions.

Indemnification

We have agreed to indemnify the placement agent against certain liabilities, including liabilities under the Securities Act, and liabilities arising from breaches and representations and warranties. We have also agreed to contribute to payments the placement agent may be required to make in respect of such liabilities.

Regulation M

The Placement Agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by it and any profit realized on the resale of the securities sold by them while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, the Placement Agent would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of securities by the Placement Agent acting as principal. Under these rules and regulations, the Placement Agent:

- may not engage in any stabilization activity in connection with our securities; and
- may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

Electronic Distribution

A prospectus supplement in electronic format may be made available on websites or through other online services maintained by the placement agent of the offering, or by its affiliates. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the Placement Agent's website and any information contained in any other website maintained by the placement agent is not part of this prospectus supplement or the registration statement of which this prospectus supplement and accompanying prospectus form a part, has not been approved and/or endorsed by us or the placement agent in its capacity as a placement agent and should not be relied upon by investors.

Listing

Our common stock is traded on the Nasdaq Capital Market under the symbol "AUID."

Other Activities and Relationships

The Placement Agent and certain of its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The Placement Agent and certain of its affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of its various business activities, the Placement Agent and certain of its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the Placement Agent or its respective affiliates have a lending relationship with us, they routinely hedge their credit exposure to us consistent with their customary risk management policies. The Placement Agent and its respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the units offered hereby. Any such short positions could adversely affect future trading prices of the units offered hereby. The Placement Agent and certain of its affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The foregoing includes a brief summary of certain provisions of the engagement letter entered with the Placement Agent dated November 2, 2023 and securities purchase agreement that we have entered into and does not purport to be a complete statement of their terms and conditions. A copy of the engagement letter with the Placement Agent dated November 2, 2023 and the form of securities purchase agreement were filed with the SEC and incorporated by reference into the registration statement of which this prospectus supplement forms a part. See "Where You Can Find More Information" on page S-14.

LEGAL MATTERS

The validity of the issuance of the securities offered by this prospectus will be passed upon for us by Fleming PLLC, New York, New York. The Placement Agent is being represented in connection with this offering by Sichenzia Ross Ference Carmel LLP, New York, New York.

RISK FACTORS

Investing in our securities involves risks. Before you make a decision to buy our securities, in addition to the risks and uncertainties discussed under “Cautionary Note Regarding Forward-Looking Statements,” you should carefully consider the specific risks set forth under the caption “Risk Factors” in any applicable prospectus supplement, as well as in our most recent Annual Report on Form 10-K and any subsequently filed Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K (other than, in each case, information furnished rather than filed), which are incorporated herein by reference. If any of these risks actually occur, it may materially harm our business, financial condition, liquidity and results of operations. As a result, the market price of our securities could decline, and you could lose all or part of your investment. Additionally, the risks and uncertainties described in this prospectus, any prospectus supplement or in any document incorporated by reference herein or therein are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of any securities offered by us under this prospectus as set forth in the applicable prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

General

The following descriptions of our capital stock and certain provisions of our certificate of incorporation and bylaws are summaries and are qualified by reference to the fourth amended and restated certificate of incorporation and amended and restated bylaws. The following summary of the material terms of our capital stock is not intended to be a complete summary of the rights and preferences of such securities. We urge you to read our amended and restated certificate of incorporation and amended and restated bylaws in their entirety for a complete description of the rights and preferences of our capital stock, copies of which have been filed with the SEC. These documents are also incorporated by reference into the registration statement of which this prospectus forms a part.

Our amended and restated certificate of incorporation provides for a single class of Common Stock and shares of undesignated preferred stock, the rights, preferences and privileges of which may be designated from time to time by our board of directors.

Our authorized capital stock consists of 1,020,000,000 shares, all with a par value of \$0.0001 per share, of which 1,000,000,000 shares are designated as Common Stock and 20,000,000 shares are designated as preferred stock.

As of October 28, 2021, we had outstanding 23,204,488 shares of Common Stock held by approximately 250 stockholders of record and no shares of preferred stock.

Common Stock

Dividend Rights

Subject to preferences that may be applicable to any then outstanding preferred stock of which there are none outstanding as of October 28, 2021, holders of our Common Stock are entitled to receive dividends, if any, as may be declared from time to time by our board of directors out of legally available funds.

Voting Rights

Except as required by law or matters relating solely to the terms of preferred stock of which there are none outstanding as of October 28, 2021, each outstanding share of Common Stock is entitled to one vote on all matters submitted to a vote of stockholders. Holders of shares of our Common Stock shall have no cumulative voting rights. Except in respect of matters relating to the election and removal of directors on our board of directors and as otherwise provided in our amended and restated certificate of incorporation or required by law, all matters to be voted on by our stockholders must be approved by a majority of the shares present in person or by proxy at the meeting and entitled to vote on the subject matter. In the case of election of directors, all matters to be voted on by our stockholders must be approved by a majority of the voting power of the shares present in person or by proxy at the meeting and entitled to vote thereon.

Liquidation

In the event of the liquidation, dissolution or winding up of our company, holders of our Common Stock are entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities and the satisfaction of any liquidation preference granted to the holders of any then outstanding shares of preferred stock.

Rights and Preferences

Holders of our Common Stock have no preemptive, conversion, subscription or other rights, and there are no redemption or sinking fund provisions applicable to our Common Stock. The rights, preferences and privileges of the holders of our Common Stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock that we may designate in the future.

Preferred Stock

No shares of our preferred stock are outstanding. Pursuant to the amended and restated certificate of incorporation, we are authorized to issue up to 20,000,000 shares of preferred stock. Our amended and restated certificate of incorporation authorizes our board, without any further stockholder action or approval, to issue these shares in one or more classes or series, to establish from time to time the number of shares to be included in each class or series and to fix the rights, preferences and privileges of the shares of each wholly unissued class or series and any of its qualifications, limitations or restrictions. Our board may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of our Common Stock. Additionally, the issuance of preferred stock may decrease the market price of our Common Stock. We currently have no plans to issue any shares of preferred stock.

Options

As of September 30, 2021, we had options to purchase 9,322,153 shares of our Common Stock outstanding pursuant to the Company's Equity Incentive Plans with exercise prices ranging from \$0.003 to \$13.50 per share, with an approximate weighted average exercise price of \$6.28 per share.

Warrants

As of September 30, 2021 we had outstanding warrants to purchase 1,413,611 shares of Common Stock with exercise prices ranging from \$1.80 to \$8.75 per share, with an approximate weighted average exercise price of \$4.61 per share.

Authorized but Unissued Capital Stock

We have authorized but unissued shares of preferred stock and Common Stock, and our board of directors may authorize the issuance of one or more series of preferred stock without stockholder approval. These shares could be used by our board of directors to make it more difficult or to discourage an attempt to obtain control of us through a merger, tender offer, proxy contest or otherwise.

Limitation on Liability and Indemnification Matters

Our amended and restated certificate of incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for:

- any breach of the director's duty of loyalty to us or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- any transaction from which the director derived an improper personal benefit.

Our amended and restated certificate of incorporation and amended and restated bylaws provide that we are required to indemnify our directors and officers, in each case to the fullest extent permitted by Delaware law. Our bylaws also will provide that we are obligated to advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding, and permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in that capacity regardless of whether we would otherwise be permitted to indemnify him or her under the provisions of Delaware law. We have entered and expect to continue to enter into agreements to indemnify our directors, executive officers and other employees as determined by our board of directors. With specified exceptions, these agreements provide for indemnification for related expenses including, among other things, attorneys' fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against our directors and officers for breach of their fiduciary duty. They may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and officers as required by these indemnification provisions. Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. At present, there is no pending litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought, and we are not aware of any threatened litigation that may result in claims for indemnification.

Transfer Agent and Registrar

The stock transfer agent for our securities is Computershare N.A. 150 Royall Street, Canton, MA 02021, and its telephone number is 877-373-6374.

Listing

Our shares of common stock are listed on the Nasdaq Capital Market ("Nasdaq") under the symbol "AUID".

The following description, together with the additional information we may include in any applicable prospectus supplements and in any related free writing prospectuses, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. - the designation of the original currency determination agent, if any;
- if the debt securities do not bear interest, the dates on which we will furnish to the applicable trustee the names and addresses of the holders of the debt securities;

- the date as of which any global security will be dated if other than the date of original issuance of the first debt security of a particular series to be issued;
- whether and under what circumstances we will pay additional amounts to non-U.S. holders in respect of any tax assessment or government charge;
- whether the debt securities will be issued in whole or in part in the form of a global security or securities and, in that case, any depositary and global exchange agent for the global security or securities, whether the global form shall be permanent or temporary and, if applicable, the exchange date;

- provisions regarding our ability or that of the holder to convert or exchange the debt securities;
- events requiring adjustment to the conversion or exchange price; and
- provisions affecting conversion or exchange in the event of our redemption of such debt securities.

This prospectus is part of a registration statement that provides that we may issue debt securities from time to time in one or more series under one or more indentures, in each case with the same or various maturities, at par or at a discount. Unless indicated in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of the issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the applicable indenture.

We intend to disclose any restrictive covenants for any issuance or series of debt securities in the applicable prospectus supplement

DESCRIPTION OF WARRANTS

We expect the following provisions will generally apply to warrants we may offer, unless we specify otherwise in the applicable prospectus supplement.

We may issue warrants for the purchase of common stock, preferred stock or debt securities (collectively “warrants”). Warrants may be issued independently or together with common stock, preferred stock or debt securities and may be attached to or separate from any offered securities. Each series of warrants will be issued under a separate warrant agreement (a “warrant agreement”) to be entered into between us and a bank or trust company, as warrant agent (the “warrant agent”). The warrant agent will act solely as our agent in connection with the warrants and will not have any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. The statements and descriptions in this prospectus or in any prospectus supplement regarding provisions of the warrants are subject to, and are qualified in their entirety by reference to, the provisions of the warrant agreement.

General

If we offer warrants to purchase common stock, preferred stock or debt securities, the related prospectus supplement will describe the terms of the warrants, including, if applicable:

- the title of the warrants;
- the offering price, if any;
- the aggregate number of warrants;
- the designation, terms and principal amount of the common stock, preferred stock or debt securities purchasable upon exercise of the warrants and the initial price at which such securities may be purchased upon exercise;
- the exercise price of the warrants;
- the date on which the right to exercise the warrants shall commence and the date on which such right shall expire;
- if applicable, the designation and terms of the securities that the warrants are issued with and the number of warrants issued with each security;
- if applicable, the date from and after which the warrants and any securities issued with the warrants will be separately transferable;
- if applicable, the minimum or maximum amount of the warrants that may be exercised at any one time;
- a discussion of certain federal income tax considerations, if applicable;
- the redemption or call provisions, if any;

- if applicable, the antidilution provisions of the warrants;
- any other terms of the warrants, including terms, procedures, and limitations relating to the exchange and exercise of the warrants; and
- any other material terms of the warrants.

The shares of common stock or preferred stock issuable upon exercise of the warrants will, when issued in accordance with the warrant agreement, be fully paid and non-assessable.

No Rights

Holders of warrants will not be entitled, by virtue of being such holders, to any rights of holders of the underlying securities. For example, holders of warrants will have no rights to:

- vote or consent;
- receive dividends;
- payments of principal of and interest, if any, on the securities;
- receive notice as stockholders with respect to any meeting of stockholders for the election of our directors or any other matter; or
- exercise any rights whatsoever as our stockholders.

DESCRIPTION OF UNITS

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes the general features of the units that we may offer under this prospectus. We may issue units consisting of two or more other constituent securities. These units may be issuable as, and for a specified period of time may be transferable only as a single security, rather than as the separate constituent securities comprising such units. While the features we have summarized below will generally apply to any units we may offer under this prospectus, we will describe the particular terms of any units that we may offer in more detail in the applicable prospectus supplement. The specific terms of any units may differ from the description provided below as a result of negotiations with third parties in connection with the issuance of those units, as well as for other reasons. Because the terms of any units we offer under a prospectus supplement may differ from the terms we describe below, you should rely solely on information in the applicable prospectus supplement if that summary is different from the summary in this prospectus.

We urge you to read the applicable prospectus supplement related to the specific units being offered, as well as the complete instruments that contain the terms of the securities that comprise those units. Certain of those instruments, or forms of those instruments, have been or will be filed as exhibits to the registration statement of which this prospectus is a part, and supplements to those instruments or forms may be incorporated by reference into the registration statement of which this prospectus is a part from reports we file with the Commission.

If we offer any units, certain terms of that series of units will be described in the applicable prospectus supplement, including, without limitation, the following, as applicable:

- the title of the series of units;
- identification and description of the separate constituent securities comprising the units;
- the price or prices at which the units will be issued;
- the date, if any, on and after which the constituent securities comprising the units will be separately transferable;
- a discussion of certain United States federal income tax considerations applicable to the units; and
- any other terms of the units and their constituent securities.

- any other method permitted pursuant to applicable law.

We may also sell the securities offered by this prospectus in “at the market offerings” within the meaning of Rule 415(a)(4) under the Securities Act of 1933, as amended (the “Securities Act”), to or through a market maker or into an existing trading market, on an exchange or otherwise.

The accompanying prospectus supplement will set forth the terms of the offering and the method of distribution and will identify any firms acting as underwriters, dealers or agents in connection with the offering, including:

- the name or names of any underwriters, dealers or agents;
- the purchase price of the securities and the proceeds to us from the sale;
- any over-allotment options under which the underwriters may purchase additional securities from us;
- any underwriting discounts and other items constituting compensation to underwriters, dealers or agents;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; or
- any securities exchange or market on which the securities offered in the prospectus supplement may be listed.

Only those underwriters identified in such prospectus supplement are deemed to be underwriters in connection with the securities offered in the prospectus supplement. Any underwritten offering may be on a best efforts or a firm commitment basis.

The distribution of the securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at varying prices determined at the time of sale, or at prices determined as the applicable prospectus supplement specifies. The securities may be sold through a rights offering, forward contracts or similar arrangements.

In connection with the sale of the securities, underwriters, dealers or agents may be deemed to have received compensation from us in the form of underwriting discounts or commissions and also may receive commissions from securities purchasers for whom they may act as agent. Underwriters may sell the securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agent.

We will provide in the applicable prospectus supplement information regarding any underwriting discounts or other compensation paid to underwriters or agents in connection with the securities offering, and any discounts, concessions or commissions which underwriters allow to dealers. Underwriters, dealers and agents participating in the securities distribution may be deemed to be underwriters, and any discounts and commissions they receive and any profit they realize on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters and their controlling persons, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward specific civil liabilities, including liabilities under the Securities Act.

Any common stock sold pursuant to a prospectus supplement will be listed on the Nasdaq, subject to official notice of issuance. We may elect to list any other securities on an exchange, but we are not obligated to do so. It is possible that one or more underwriters may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, any offered securities.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in an offering. Stabilizing transactions consist of bids or purchases made for the purpose of preventing a decline in the market price of the securities while an offering is in progress. The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions. These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the securities. As a result, the price of the securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. Underwriters may engage in over-allotment. If any underwriters create a short position in the securities in an offering in which they sell more securities than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing the securities in the open market.

Underwriters, dealers or agents that participate in the offer of securities, or their affiliates or associates, may have engaged or engage in transactions with and perform services for, us or our affiliates in the ordinary course of business for which they may have received or receive customary fees and reimbursement of expenses.
