Explanation of Responses:

- The stock option vesting is subject to achievement of performance and service conditions, or as to the entire balance upon earlier termination on change of control.
- Reflects the weighted average purchase price. The range of prices for such transactions is \$6.35 to \$6.75. Open market purchase transactions were made on the same day at different prices through a trade order executed by a broker-dealer. The reporting person has reported on a single line all such transactions that occurred within a one dollar price range. The reporting person hereby undertakes to provide upon request by the Securities and Exchange Commission staff, the issuer or a shareholder of the issuer, full information regarding the number of shares sold at each separate price.
